MAP 2

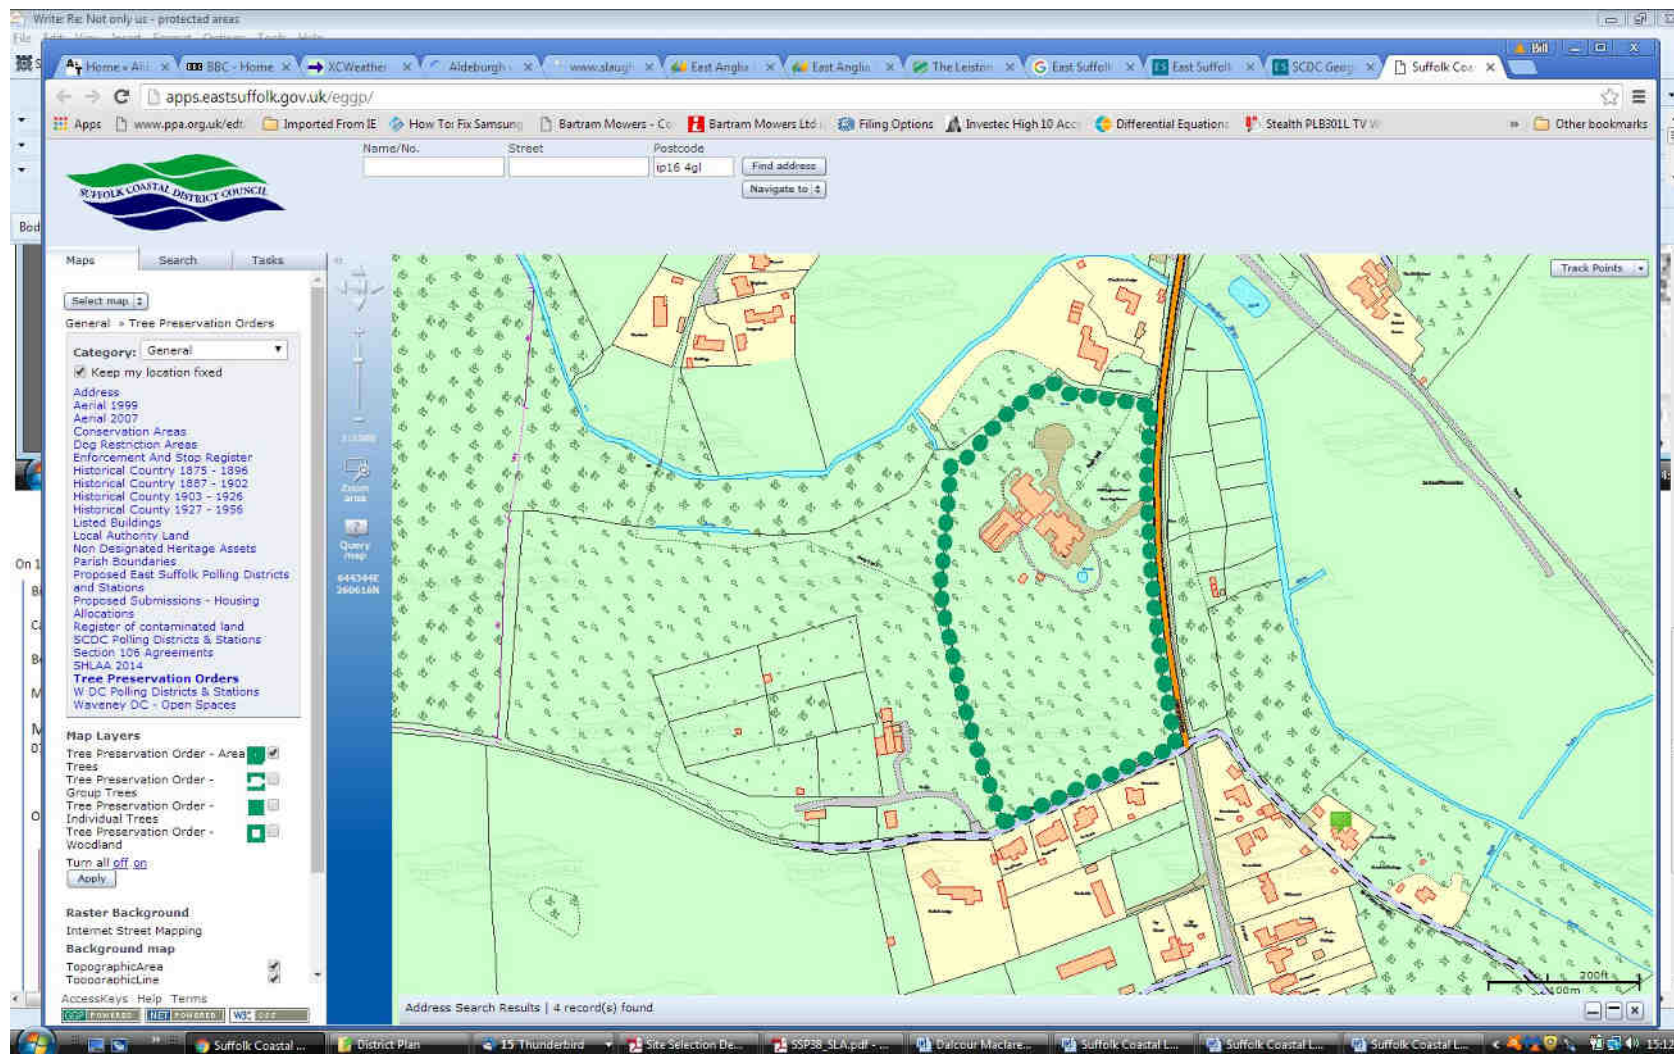

B1122 Aldringham Cable Corridor Crossing Place – an aerial view

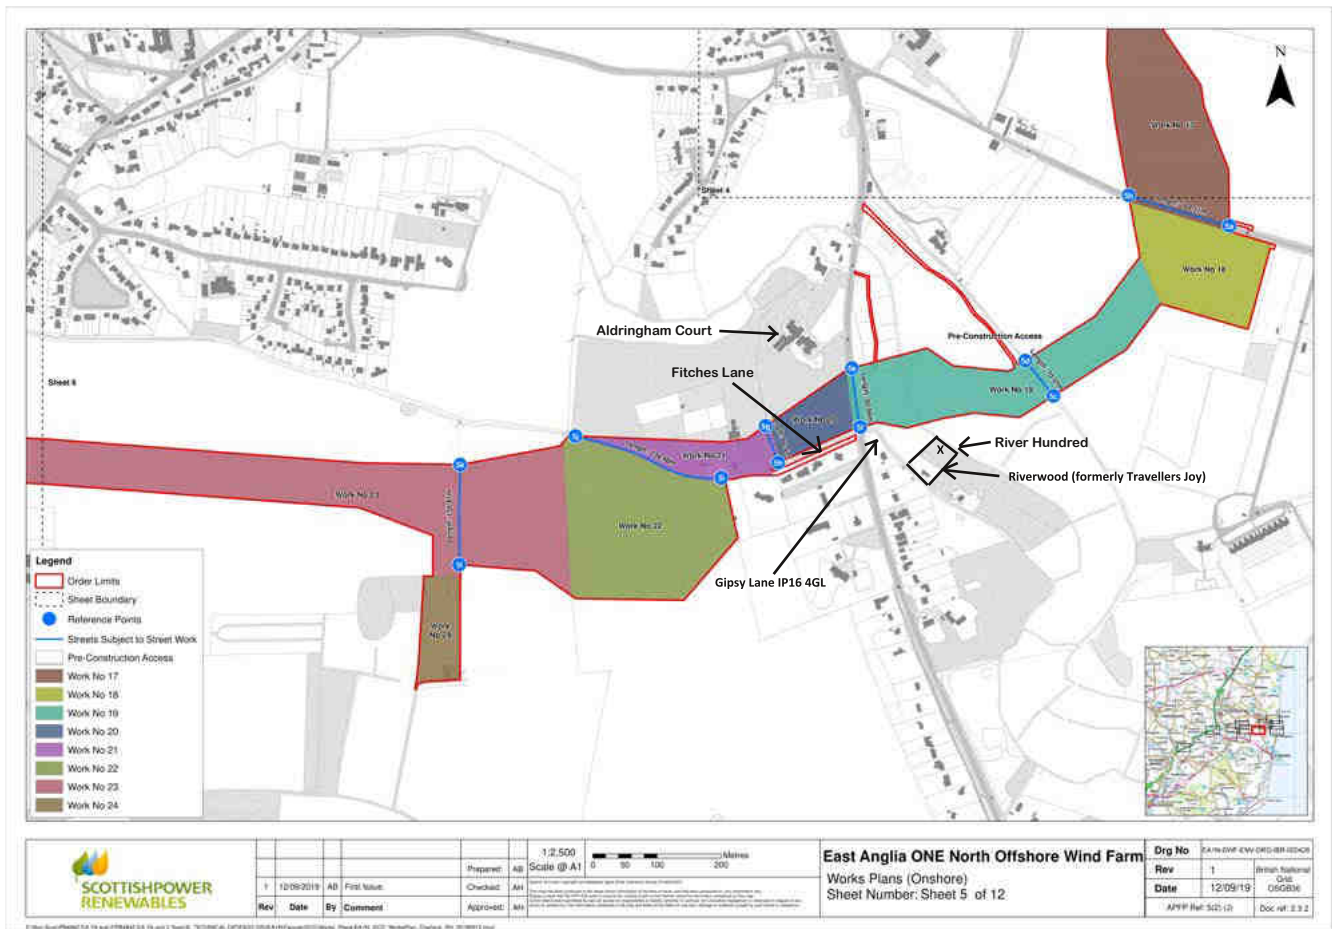

acid grassland, lowland heathland, lowland meadows, lowland raised bog, limestone pavements, maritime cliff and slope, mudflats, purple moor grass & rush pastures, reedbeds, saline lagoons, traditional orchards, undetermined grassland, upland calcareous grassland, upland hay meadows and upland heathland. These earlier inventories were produced from 1999 onwards and derived from habitat datasets collated from across the country, prioritising areas outside of designated sites. Attribution statement: © Natural England copyright. Contains Ordnance Survey data © Crown copyright and database right [year]. The Resource Locator links are: PHI North, PHI Central and PHI South. 2 links are provided for each, Natural England Open Data Geoportal and transferbigfiles.com download. By merging all three datasets together you can create a full coverage dataset of England. These datasets do not overlap to facilitate this. Attribution statement: © Natural England copyright. Contains Ordnance Survey data © Crown copyright and database right [year].

Priority Habitat Deciduous Woodland – Aldringham (Magic Maps)

Priority Habitat Inventory (England)

Published by:

Natural England

Last updated:

27 October 2020

Summary

This is a spatial dataset that describes the geographic extent and location of Natural Environment and Rural Communities Act (2006) Section 41 habitats of principal importance. This inventory replaces Natural England's previous separate BAP habitat inventories: blanket bog, coastal & floodplain grazing marsh, coastal sand dunes, coastal vegetated shingle, deciduous woodland, fens, lowland calcareous grassland, lowland dry
